

## **TEMPORARY EMPLOYMENT OPPORTUNITY**

The **Ghana Integrated Iron and Steel Development Corporation (GIISDEC)** invites applications from qualified and experienced professionals for temporary engagements in support of its operational and strategic activities.

### **Areas of Engagement**

- Mineral Exploration
- Mining Services
- Strategy and Policy Implementation
- Investment Management

### **Scope of Engagement**

Successful applicants will be engaged on a short-term basis to provide technical and advisory support in their respective areas. Key responsibilities will include:

- Supporting mineral resource assessment and exploration activities
- Providing technical input into mining operations and services
- Assisting in the development and implementation of strategic plans and policies
- Conducting research, analysis, and reporting to support decision-making
- Supporting project execution and stakeholder engagement

### **Qualification & Experience**

- A minimum of a Master's Degree in a relevant field (e.g., Geology, Mining Engineering, Metallurgy, Public Policy, Investment, Economics, or related discipline)
- Relevant professional experience in the applied area
- Strong analytical, technical, and report-writing skills

- Demonstrated ability to work independently and within multidisciplinary teams

### **Key Competencies**

- Technical expertise in the relevant field
- Strong problem-solving and analytical skills
- Good communication and interpersonal skills
- High level of professionalism and integrity

### **Duration**

Engagement will be for a fixed short-term period, subject to project requirements and performance.

### **Location**

Assignments may be based in Accra and/or other operational areas across the country.

### **Mode of Application**

Interested applicants should submit their CV and a brief cover letter indicating their area of expertise to: [info@giisdec.com](mailto:info@giisdec.com)
